

FURTHER GENETICS ACTIVITIES ONLINE

The GEEE! in Genome Home page – Lots of good genetics information and games, both to do online and to download and do in the classroom

nature.ca/genome/index_e.cfm

The Biology Corner – Worksheets on a variety of biological topics

www.biologycorner.com/worksheets.html

Genetics Practice Problems – Online activities covering monohybrids, dihybrids, trihybrids, incomplete dominance, codominance, linked genes, and more

biology.clc.uc.edu/Courses/Bio105/geneprob.htm

Working out Punnett Square Examples – More online activities covering monohybrids, dihybrids, and incomplete dominance

www.athro.com/evo/gen/punexam.html

“Punnett square” on Wikipedia – Simple explanations and examples

en.wikipedia.org/wiki/Punnett_square

Practice Punnett Square Problems – Simple problems with step-by-step solutions

frank.mtsu.edu/~rseipelt/web212b/ho/212practpun.htm

Punnett Square Calculator – Quickly create your own Punnett square problems online, complete with solutions and percentages

www.changbioscience.com/genetics/punnett.html

Virtual Lab: Punnett Squares – Tutorial/activity showing how to predict inheritance in fruit flies

www.mhhe.com/biosci/genbio/virtual_labs/BL_05/BL_05.html

These are, of course, only a few of the websites that have genetic problems, worksheets, and activities. Search for Punnett square problems, genetic worksheets, heredity problem worksheet, etc., and see what else you can find!
